

INTELIS JIVARO

HEIGHT ADAPTATION PACKING SOLUTION FOR ORDER PICKING APPLICATION

INTELIS JIVARO® is a closing machine which adapts the height of boxes to product dimensions, in order to reduce the size of shipments.

INTELIS JIVARO® ensures, among others, secure shipping and completely automated closing of boxes.

Optimized DIM Weight Factor

INTELIS JIVARO® produces an efficient Customized Packing in order to address DIM Weight* pricing. Our Fully Automated Solution greatly impacts on your shipping rates, while decreasing labor costs. By choosing INTELIS JIVARO® you get an Eco-Friendly, Reliable, Cost/Time/Space-Saving Technology.

Optimise your business operations in real-time with INTELIS JIVARO®!

*DIM Weight = (Length x Width x Height) / Volumetric Divisor. Example: 12" x 12" x 12" box. Here's how the dimensional pricing works: $(12 \times 12 \times 12) / 166 = 10.4$
In this case, you would be charged as if your package weighed 11 pounds.

Secure Shipping

Automated closing with lidding contributes to the good parcel geometry and to its Inviolability during the transportation.

Consumable Savings

Carton is adapted to the height of the products, which means that extra wedging consumables are not needed anymore.

Environment Asset

INTELIS JIVARO® is a concept respectful of the environment. Thanks to INTELIS JIVARO®, you benefit from better use of space on trucks and, as a result, you reduce the number of trucks on the roads and CO₂ emission.

Save Up to 30% on your Shipping Volume!

INTELIS JIVARO

User-Friendly High-Quality Packing

INTELIS JIVARO® creates Easy-To-Open and Easy-To-Reuse Packing that ensures a successful customer experience.

Top Flaps are folded without visible sticking increasing security and quality of packing.

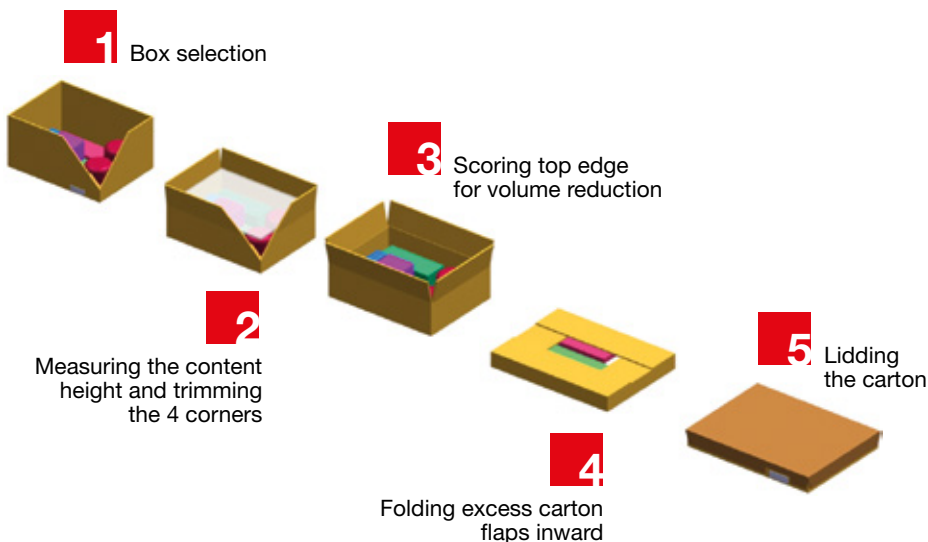

Time-Efficient Solution

Each INTELIS JIVARO® handles up to 15 cases per minute, and 1 person can operate up to 3 INTELIS JIVARO® at the same time. So for 1 operator, you actually output 45 cases per minute.

Maintenance Oriented Design

Open design of INTELIS JIVARO® allows an easy access for cleaning and maintenance and all setting parameters are accessible for modification on the control panel and remotely.

5 Basic Steps of INTELIS JIVARO® Process
